PROFESSIONAL SUMMARY:

Experienced and results-driven Email Developer with 3 years of success in creating responsive HTML emails aligned with modern marketing strategies. Proficient in HTML, CSS, and skilled in ensuring cross-platform compatibility and mobile responsiveness. Adept at using Litmus, Email on Acid, and collaborating with cross-functional teams to support flawless campaign execution. Recognized for developing top-quality email templates that precisely meet the requirements of high-profile clients.

TECHNICAL SKILLS:

- Responsive HTML/CSS Coding
- Table-Based Layouts
- Email Deliverability Optimization
- Cross-Device Compatibility
- JavaScript, AMPscript
- Braze, HubSpot, Salesforce Marketing Cloud
- Litmus, A/B Testing
- CASL & CAN-SPAM Compliance
- Mobile-First Design
- Adobe Creative Suite (Photoshop, Dreamweaver, Illustrator)

PROFESSIONAL EXPERIENCE:

Email Developer

May 2021 – October 2024

Uplers – Remote

- Developed and deployed 600+ responsive email templates using HTML and CSS, ensuring consistent rendering, mobile responsiveness, optimal user experience across all major email clients and devices.
- Used Litmus and Email on Acid to conduct in-depth QA and A/B testing, troubleshoot rendering issues, and enhance pixel accuracy, cross-platform compatibility, deliverability, and overall campaign performance.
- Hand-coded responsive HTML email templates from scratch, delivering pixel-perfect rendering across major email clients and devices to ensure brand consistency.
- Partnered with marketing, design, and project teams to build email campaigns that met client goals and improved delivery speed and visual impact.
- Applied accessibility best practices with semantic HTML and ARIA labels, ensuring CASL and CAN-SPAM compliance for better engagement and inclusivity.
- Led the review process for email templates created by 6 junior developers, assisting them in resolving rendering issues and understanding client requirements, while ensuring quality and timely client delivery.
- Deployed email campaigns across leading platforms such as Salesforce Marketing Cloud, Mailchimp, Klaviyo, HubSpot, and Braze, optimizing campaign workflows and enhancing email deliverability.
